Lack of
cooperation
between
themselves.

What strategies did I use?

7th Grade

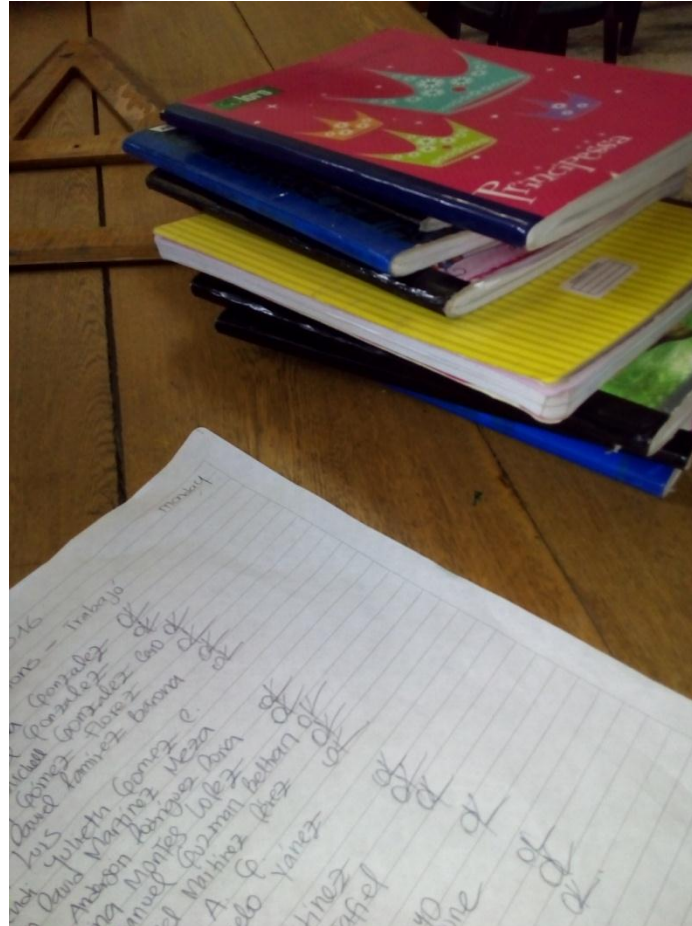

Talking individually with some students about the problem.

Talking to their teacher about details I considered important to discuss about the students.

Being more strict.

Supporting more to my students when did something positive or contributing with comments to the class.

Varied Classes.

6th Grade – 6A

**Talking
individually with
some students
about the problem
to make them
reflect on their
actions.**

**Talking to their
teacher about
specific students.**

RESULTS

- More respectful and responsables students.

- Less anxiety of students when speaking in public.

- More Willingness to work into groups.

- More participative students.
